

## KEWISO5 KIT

### Safe Isolation Made Easy.

#### Kit includes:

#### KT5

#### Fully featured electrical tester

- Provides 4 ways to check for dead circuits:
  - Non – contact voltage detection
  - Single pole voltage detection
  - Two pole voltage detection with LED and LCD display
  - Open jaw clamp for measuring MET current to detect a lost PEN conductor
- Resistance measurement
- Continuity buzzer
- Phase rotation
- Pen torch
- LCD & LED display

#### Kewprove3 - Proving unit

- High output proves all types of voltage detectors
- Fast ramp up then ramps down through stages

#### Kewlok - Lockout device

- One design fits all toggle switch MCBs, RCDs, RCBOs and mains switches
- Set your own combination
- Comes with 2 re-writable warning labels

#### Case with strap
