

## Socket & See DRC430 Full Function RCD Tester

### Description

The Socket & See DRC430 RCD tester gives all the advantages of testing different types of RCDs including General Purpose and Selective, with full installation testing compliance plus Ramp and Auto Test recall.

### Features

- Easy to use with full auto test including result recall
- Test AC (general purpose) 30mA, 100mA, 300mA and 5000mA RCDs
- Test ACS (selective) 100mA and 300mA RCD's
- Built in proven SOK 32 correct wiring indication
- Full Ramp test to check what current point the RCD trips
- Built-in full socket wiring check
- Accurate mains voltage measurement to latest BS 7697, HD 472 S1
- Unique Socket & See polarity test gives ultimate overall system safety check

**Specification**

<b>Overvoltage Category</b>	CAT III 300 V
<b>Over Voltage Protection</b>	440V AC No damage complete recovery
<b>Operating Temperature</b>	0°C to 40°C
<b>Operating Humidity</b>	80% @ 31°C to 50% @ 40°C
<b>Safety Compliance</b>	BS EN 61010-2-030:2010
<b>Dimensions</b>	157mm x 89mm x 39mm
<b>Weight</b>	400g

**What's Included?**

- DRC430 RCD tester
- IECPUKA Mains lead
- Instruction manual
- Carry case

Order Code: **SOC/DRC430**
