

Socket & See SOK22 Craftsman Socket Tester

Description

The Socket & See SOK22 is designed to give a quick & easy indication of correct wiring at the socket. Particular emphasis is placed on detecting very dangerous wiring conditions such as reversed live earth connections & disconnected wires.

Features of the SOK22

- Continuous audible tone gives positive good wiring indication
- Strong warbling tone gives clear warning of faulty wiring
- Advanced electronics include a quad comparator to give clear indication even on noisy circuits
- Detects good plus 13 wiring fault conditions

Specifications
