**4Sight2 software works with portable calibration
as well as automated calibration.**

Calibration Unified from Druck

The integration of hardware, software and people to create optimized processes to deliver efficiency and high-quality outcomes.

- Data Driven Strategic Planning
- Improved and Consistent Quality
- Increased Productivity
- Enhanced Process Efficiency
- Compliant Audit Ready Data.

Français

4Sight2 est désormais disponible dans 7 langues différentes.

Ce logiciel permet de mettre en commun les informations collectées par nos appareils de mesure (calibrateurs et contrôleurs) avec vos collaborateurs pour fournir la solution la plus adaptée. Son fonctionnement est simple et sécurisé : il aide à gérer le processus pour assurer l'entretien, améliorer l'efficacité et éviter toute erreur humaine.
